## COVID VACCINES FROM A SPIRITUAL PERSPECTIVE

Consequences for the Soul and Spirit  
and for Life after Death

Thomas Mayer

“People will be inoculated against their disposition towards spiritual ideas.”

“The materialistic physicians will be entrusted with the task of expelling the souls from mankind.”

### Rudolf Steiner

From Lectures given on November 6, 1917, GA 178, and October 7, 1917, GA 177

## **This lecture is not about**

- that the Covid vaccinations do not protect against Covid,
- how many thousands of people have died or become chronically ill as a result.

## **It is not about**

- that all of this was known in advance by the pharmaceutical companies and state approval authorities (see “The Pfizer Papers”),
- or that most of the state Covid measures did more harm than good.

This lecture is about the more important question:

**How do Covid vaccinations affect**

- **the soul and spirit,**
- **and our life after-death?**

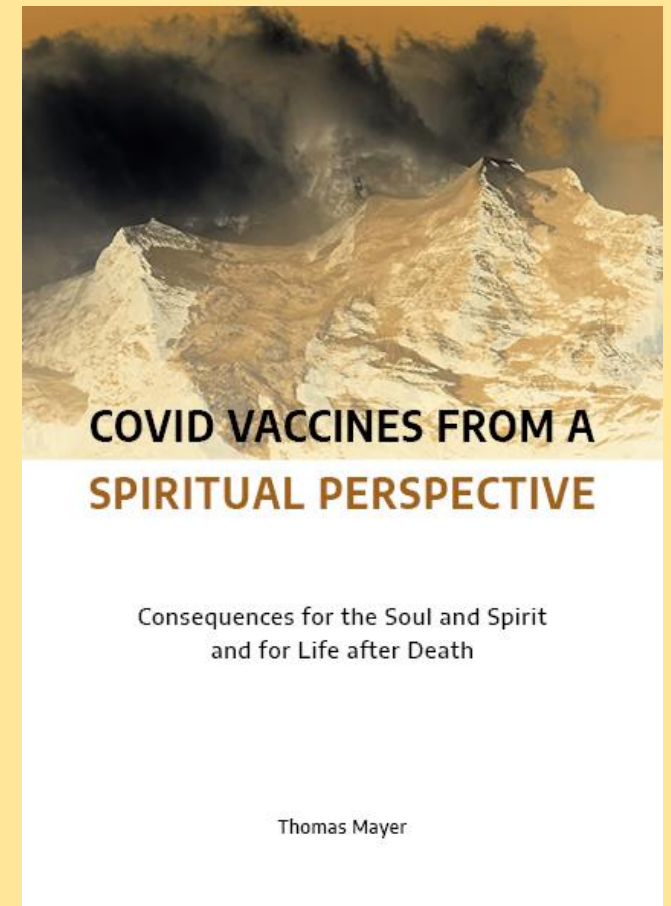

This is of the highest importance, but is hardly considered in public discussion.

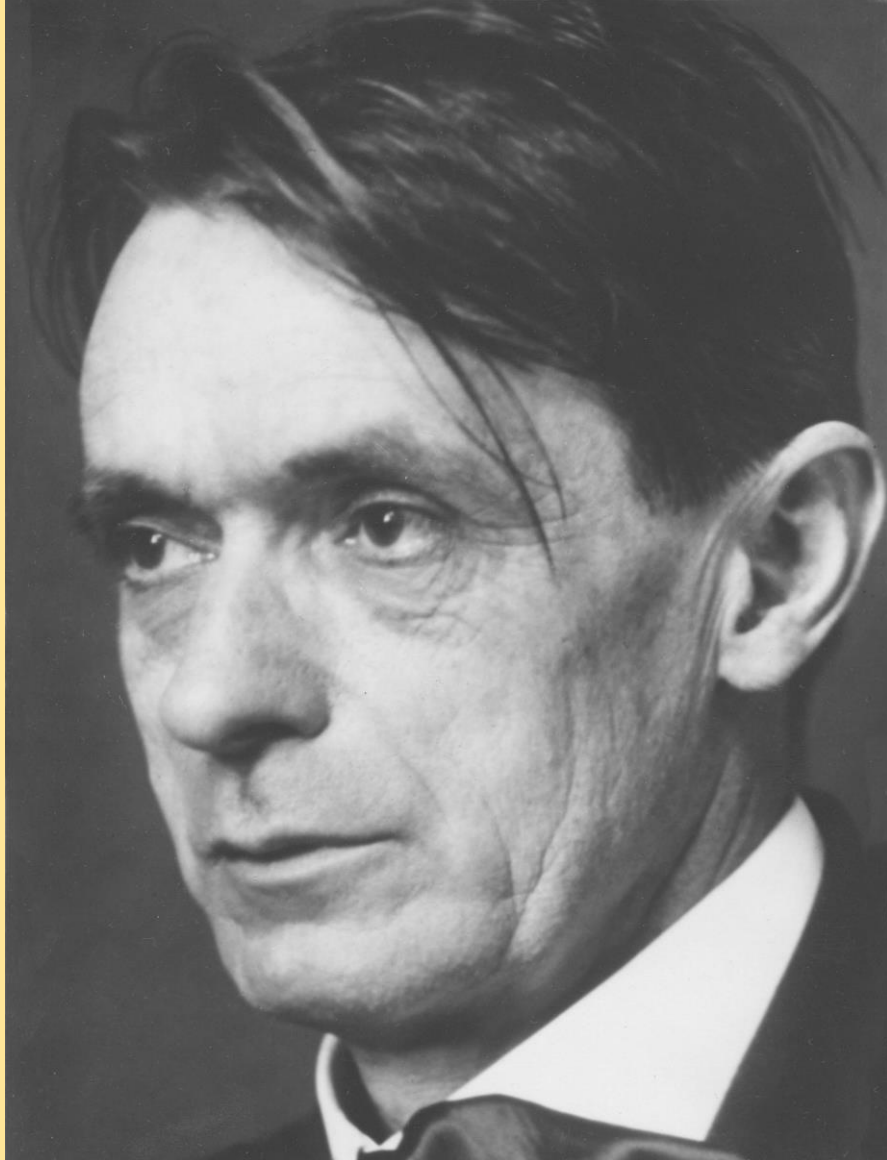

I will report on my own research and present many other studies.

# Covid Vaccines from a Spiritual Perspective Consequences for the Soul and Spirit

Independent research groups from Switzerland and Germany with more than 50 people investigated the effects of the corona vaccinations on the auric sheaths and the life after death using supersensible perception.

This book is the result:

“People will be inoculated against their disposition towards spiritual ideas.”

“The materialistic physicians will be entrusted with the task of expelling the souls from mankind.”

# Rudolf Steiner on bacteria and viruses:

- “... The idea that germs and bacteria move in and out of people and cause diseases is a modern superstition.”
- “Anyone who claims that diseases originate in small creatures, who says, for example: the flu is caused by the flu bacillus and so on, is of course just as clever as someone saying that rain is caused by the croaking frogs. Of course, when the rain comes, the frogs croak because they sense it. (...) But the frogs don’t bring the rain. Likewise, the bacilli do not bring flu; but they are where the flu is.
- More in the book: Thomas S. Cowan: The Contagion Myth

# Results:

- It has been shown that the new gene-based covid vaccines cause serious damage to the supersensible members of the human being.
- They are much more harmful than conventional vaccines.
- They separate the physical and etheric bodies from the soul and spirit.
- Sensitive people can experience this in such a way that they feel separated from their 'I' and abandoned by their angel or by the divine; the physical body is experienced as denser and the life forces (etheric body) are weakened.

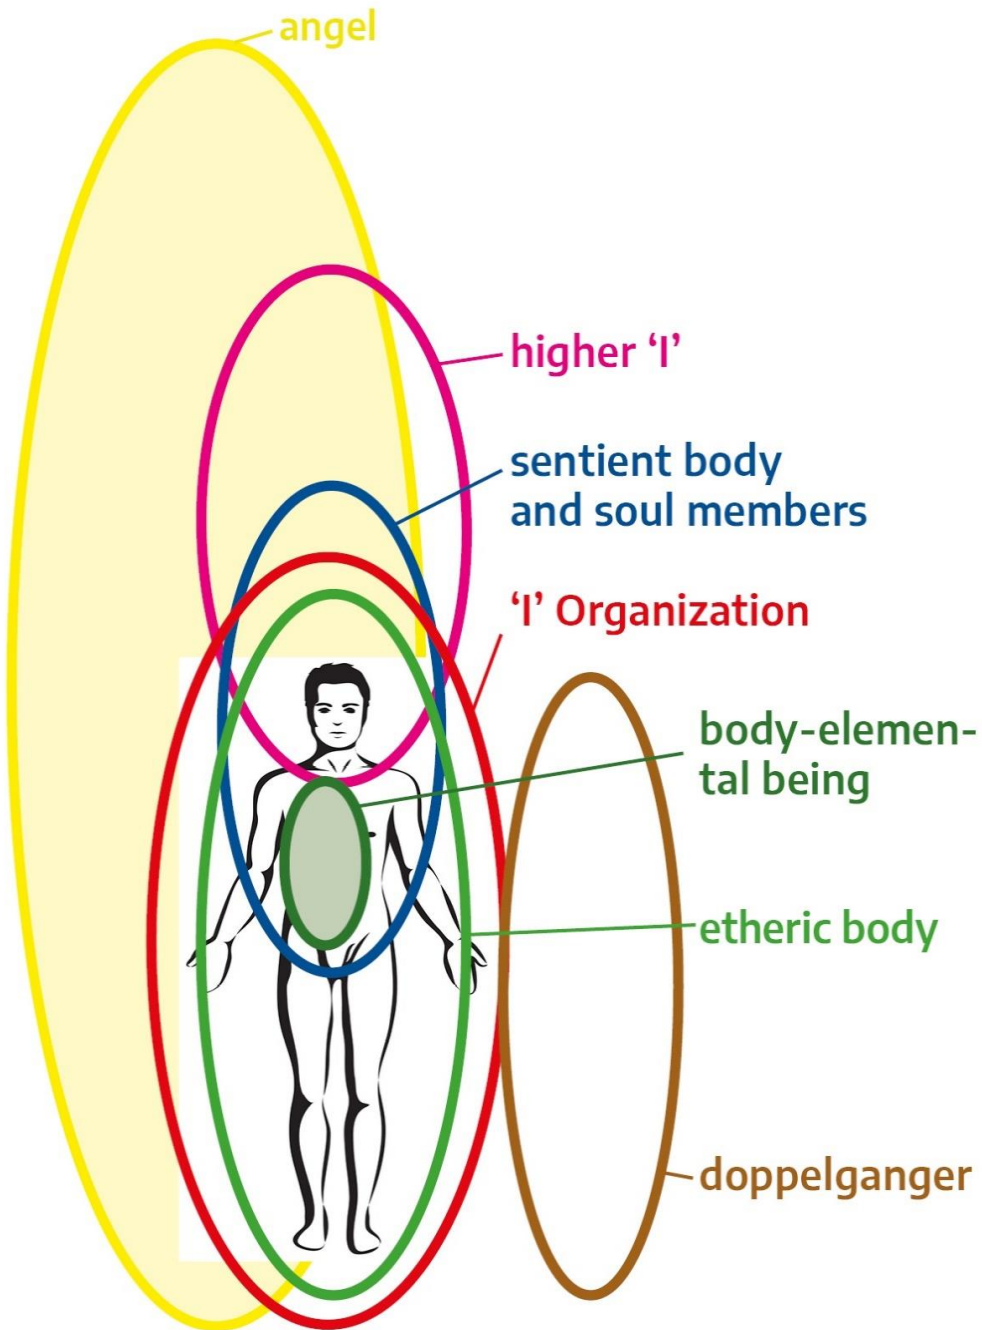

## Normal supersensible members of the human being

In the supersensible examination, we observe the aura of the person in a differentiated way at different spiritual levels.

We also investigate the spiritual beings that are involved. Every process is accompanied by spiritual beings.

### Normal supersensible members of the human being

This is a typical case, individually the extension of the supersensible members of the human being are different.

### The bodies of the human being:

- Material body
- Physical body, also called phantom body or form body
- The etheric body, also called the Life body or the body of formative forces
- Astral body
- Sentient body

### The Soul of the human being:

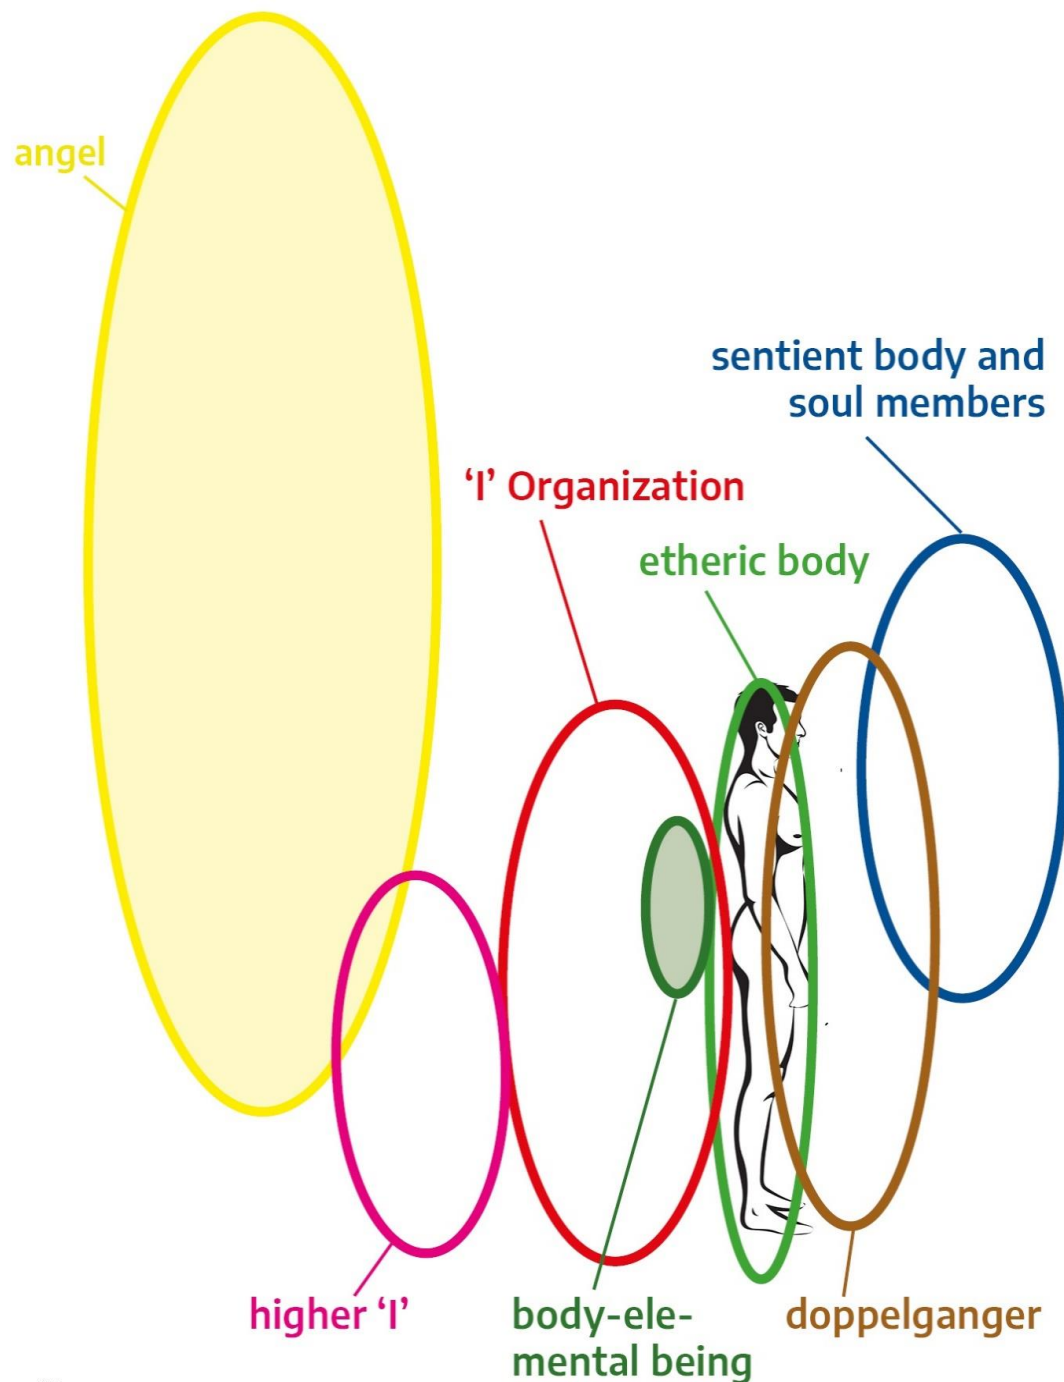

- The 'I' and the 'I' Organization
- Sentient soul
- Intellectual soul, also called mind soul or rational soul
- Consciousness soul

### The Spirit of the human being:

- Spirit self
- Life Spirit
- Spirit Human

### The spiritual team:

- The angel
- Body-elemental being
- Doppelganger/Double

## Typical impact of a corona vaccination

The supersensible members of the human being are pulled apart and displaced. The human being is not completely together anymore. Through an active processing of the vaccination it is possible to bring the person back together.

Other phenomena with the vaccines used in Europe and with the covid illness are described in the book "Covid Vaccines from a Spiritual Perspective":

- **Soratic transhumanism spirits in the aura.** These spirits take possession of the human being and displace soul and spirit. They act through all auric sheaths, even on the phantom body. This can lead to feeling like a robot.
- **The vaccine being** is very close and anchored in many organs.
- **The Covid Illness being** is close.
- **The SarsCov2 being** is close.
- **The angel** is shadowed. The connection to the spirit world is weakened.
- **The phantom body** has cracks.
- **The body-elemental being** is burdened and weakened.
- **They are disease and vaccine demons** in the members of the being.
- **In the chakras** there are blockages.
- **The etheric body** is hardened and no longer vibrates into the cosmos.
- **The human being** becomes more narrow-minded and less empathic.
- **The effects are stronger than previous vaccinations,** because not only ahrimanic spirits but also soratic spirits are attracted.

# **From a reader of my book about Covid vaccines**

I am aware of some of the issues with the vaccine through my own sensitivities.

I find it extremely difficult to be around anyone vaccinated; I feel the vaccine entities immediately trying to attack the portal to the soul on the back of my neck, and cut my spiritual connection.

Many are unaware of the spiritual connotations and dangers of the vaccine, nor can conceptualize of the level of black magic involved. It goes even further than we think.

# Similar reports from healers in South America

Swedish journalist Per Shapiro traveled through South America in the fall of 2023 and interviewed several healers and people from indigenous communities. They say the same thing.

Per Shapiro: “More and more healers are noticing dramatic changes in the energy fields of people who have been vaccinated with the C-19 vaccine. Many describe that it has become much more difficult or even impossible to reach the soul or ‘higher self’ of the person, that the life forces have slowed down and that the aura is full of empty spaces and no longer functions as a protective shield against foreign energies.”

# What is the effect of the vaccine?

- The harmony of body, soul and spirit is disturbed.
- The connection to the divine spiritual world is disrupted.
- This causes illnesses of all kinds. Illnesses always have spiritual causes as well, which then manifest in the physical body.
- The mental and spiritual life is burdened.
- When the bodies of human beings are changed in such a way that the spiritual connection is hindered, then people feel and think in a more materialistic way.

# A modern form of religious war

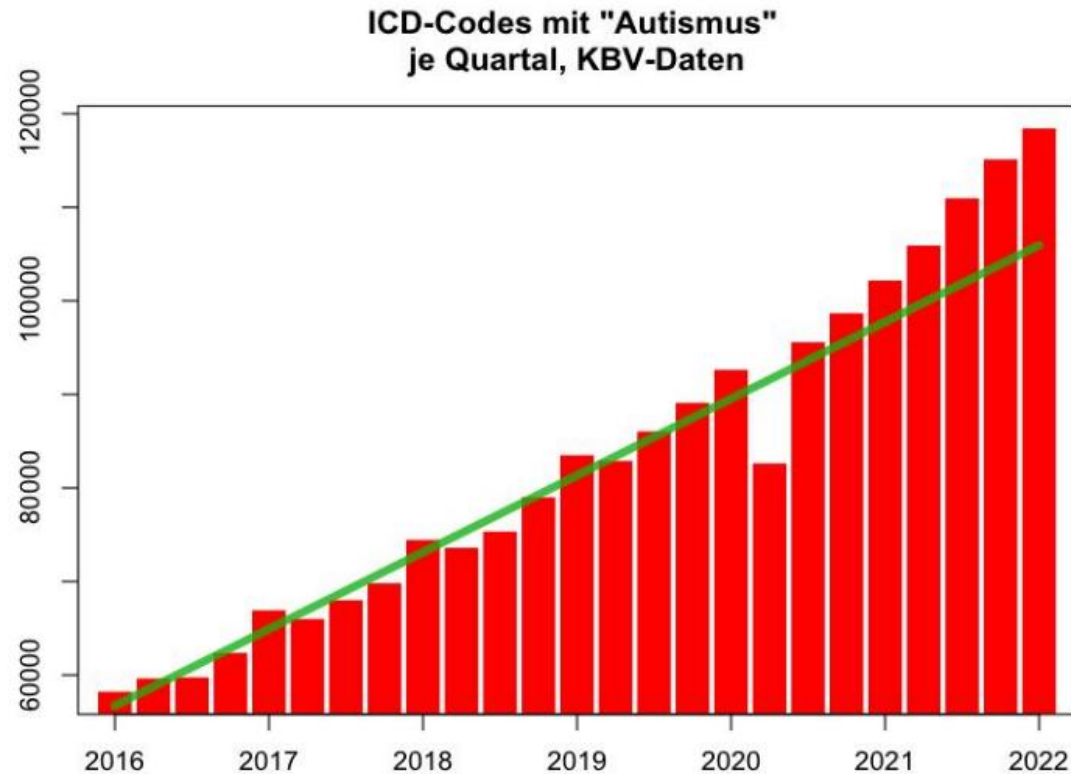

- The Covid vaccination is a strong spiritual attack on humanity.
- However, this is not directed at the soul and spirit directly; rather, the battle is for control of the physical body.
- Materialism is to be anchored in the physical body.
- If the higher self of people is less able to enter the physical body, this has an impact on moral feelings. Isolated from their individual core, people can be more easily influenced and controlled from the outside.

# Autism caused by “normal” vaccinations:

- Autism in children is increasing rapidly in Germany – thanks to 52 vaccinations by the age of 15?
- There is a completely unvaccinated control group, the children of the Amish in the US. Autism is unknown there.

# Covid vaccines affect personality and emotions

- Study in Seoul, South Korea in 2022 with over 2 million participants.
- 50% of the population randomly selected.
- Two groups: vaccinated and unvaccinated.
- Result: Covid vaccinations triggered a 68.3% increase in depression, a 43.9% increase in anxiety disorders and a 93.4% increase in sleep disorders.

# “Brain fog” and Alzheimer's after vaccination

Another study from South Korea examined 558,017 people over the age of 65. The result was that COVID vaccination increased the risk of mild cognitive impairment by 138% and the risk of Alzheimer's by 23%.

# Mental Illnesses

- **Children and teenagers in New Zealand:** Until 2021, antidepressant prescriptions rose at an alarming rate of 5% annually, but in 2021, they rose by as much as 23%! What caused this? There were lockdowns in 2020 and 2021. There were very few cases of Covid in New Zealand. But in 2021, there were the Covid mass vaccinations!

- **Case Study:** Patient developed immediate anxiety and sleeplessness after the second mRNA injection and from the second week on, paranoia and delusional behavior manifested, culminating in a suicide attempt.

# Psychosis after vaccination

One study collected documented individual cases of new-onset psychosis after COVID vaccinations.

“Almost all of the cases examined (95.8%) showed psychotic symptoms, such as hallucinations (visual, auditory, olfactory, and tactile) and delusions (mostly persecutory and reference delusions).”

91.2% of the patients had no specific history of mental illness.

# Studies: Spike proteins accumulate in the brain and cause damage

- „Drbeen Medical Lectures“ with eight studies

<https://www.youtube.com/watch?v=Jmje9djPd5o> (May 2023)

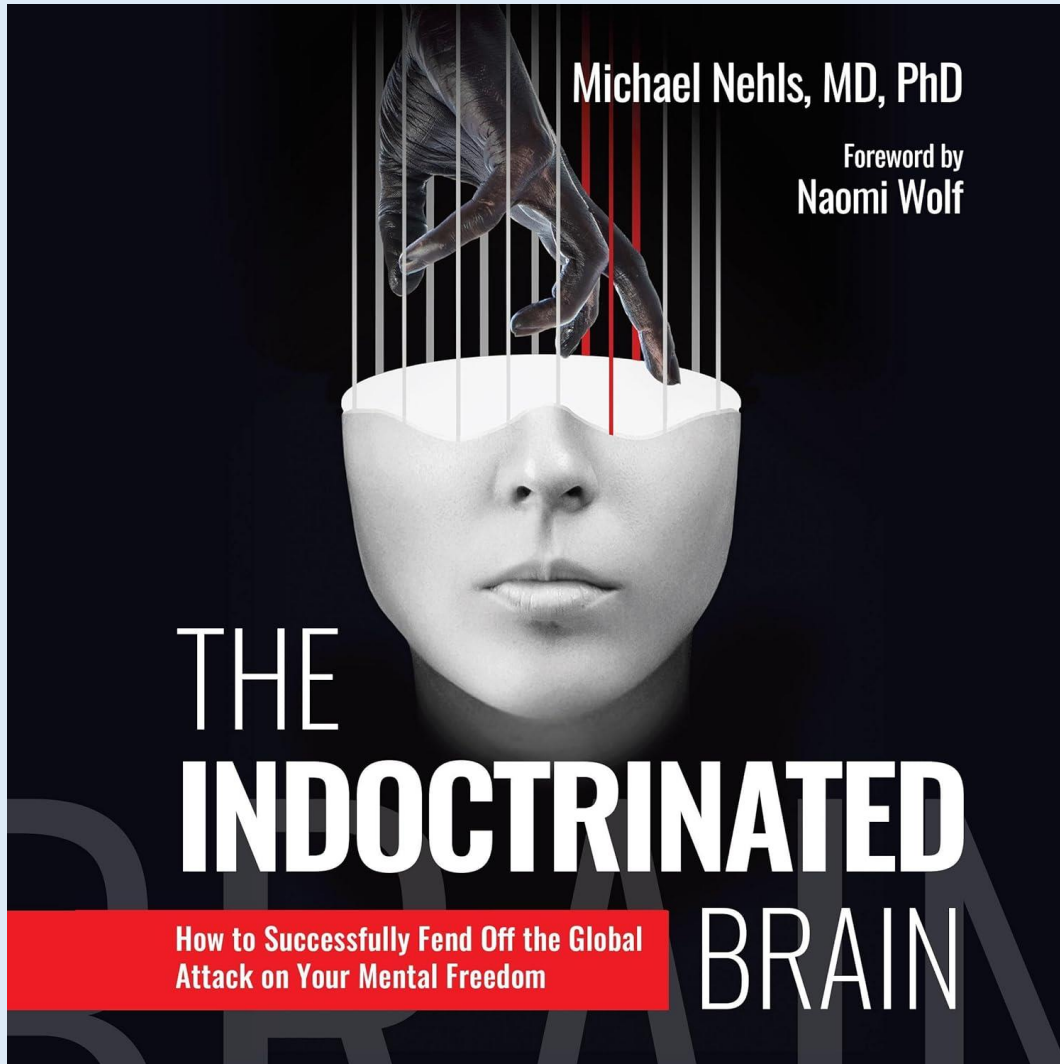

- A study shows an accumulation of the spike proteins in the brain and cerebral membrane. These spike proteins lead to cell death. Spike proteins were also detected in the brain of deceased individuals. This shows that they have a long-term effect. The main source of spike proteins are the Covid vaccinations.

- Lecture by Prof. Sucharit Bhakdi: mRNA vaccinations damage the small capillaries in the brain, override the blood-brain barrier and can thus lead to personality changes.
- Psychiatrist Dr. Peter Breggin sees parallels between the effects of mRNA and those of lobotomy. Lobotomy is a surgery in the brain that “shatters fantasy, deadens feeling, destroys abstract thought, and creates a robot-like, controllable individual” (according to lobotomy surgeon Walter Freeman).

# Book of Dr. Michael Nehls about Covid vaccination

“A previously little-known neurobiological mechanism of indoctrination, which profoundly changes personality, has been weaponized against humanity.

The goal is to get people to 'willingly' accept a new totalitarian operating system that is actually incompatible with the human being.”

## **Dr. Michael Nehls in “The Indoctrinated Brain” (August 2023):**

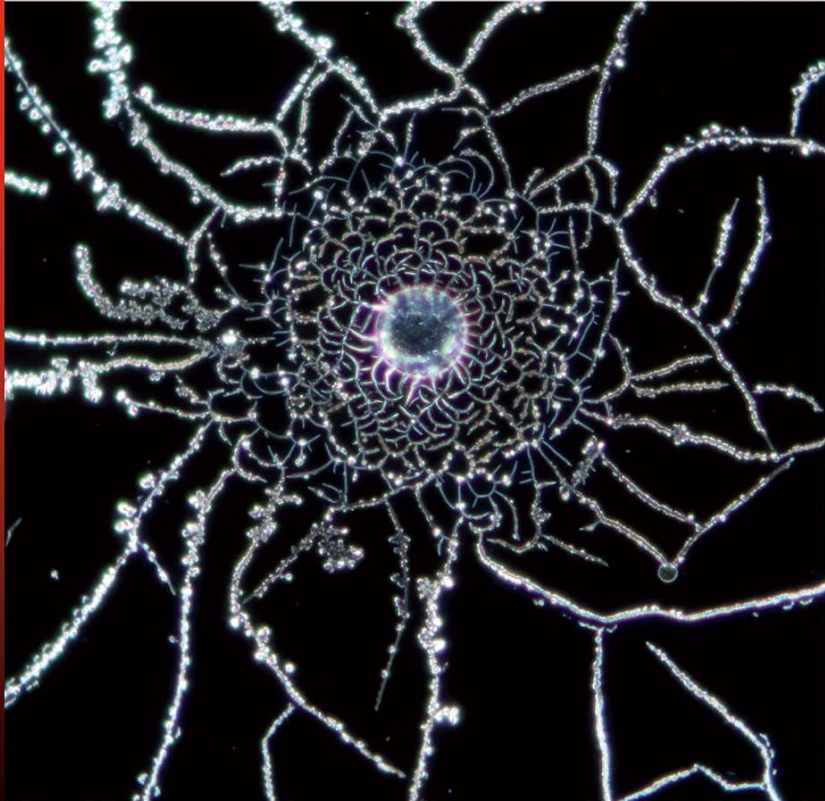

- Spike proteins are in the body as a result of Covid vaccinations or Covid illnesses.
- The spike proteins attack the autobiographical memory in the brain, block index neuron production and can even cause the hippocampus to shrink.
- Added to this are further brain-damaging life changes: Corona measures, AI-related loss of work and tasks, total surveillance and control through “social scoring” systems, as well as a loss of autonomy and meaning in life.
- As a result, many people lose their individual experiences, cultural ties and society loses its mental immune system. People become more receptive to indoctrination. They forget who they are and, with little resistance, allow others to tell them who they should be and what they should do.

# Inge Just-Nastansky: Corona Blood Phenomena

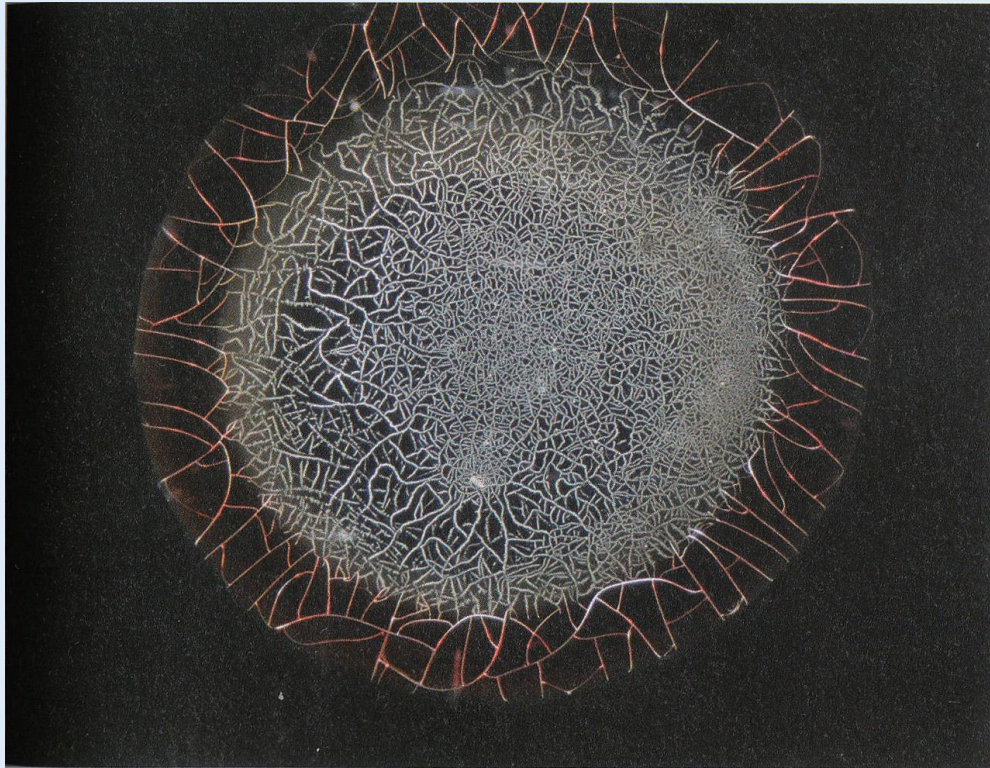

- Covid vaccination and covid disease showed phenomena not seen in 20 years of blood research.
- There are massive changes, in some cases a complete destruction of the protein structures.
- For the unvaccinated having recovered from covid, the blood pictures usually returned to normal after a few days or weeks.
- In contrast, there was no complete normalization for the corona vaccinated even after months.

- The “I” of the human being is physically represented in the blood. A "weakening of the I" and "loss of spiritual connection" can therefore also show up in the blood.

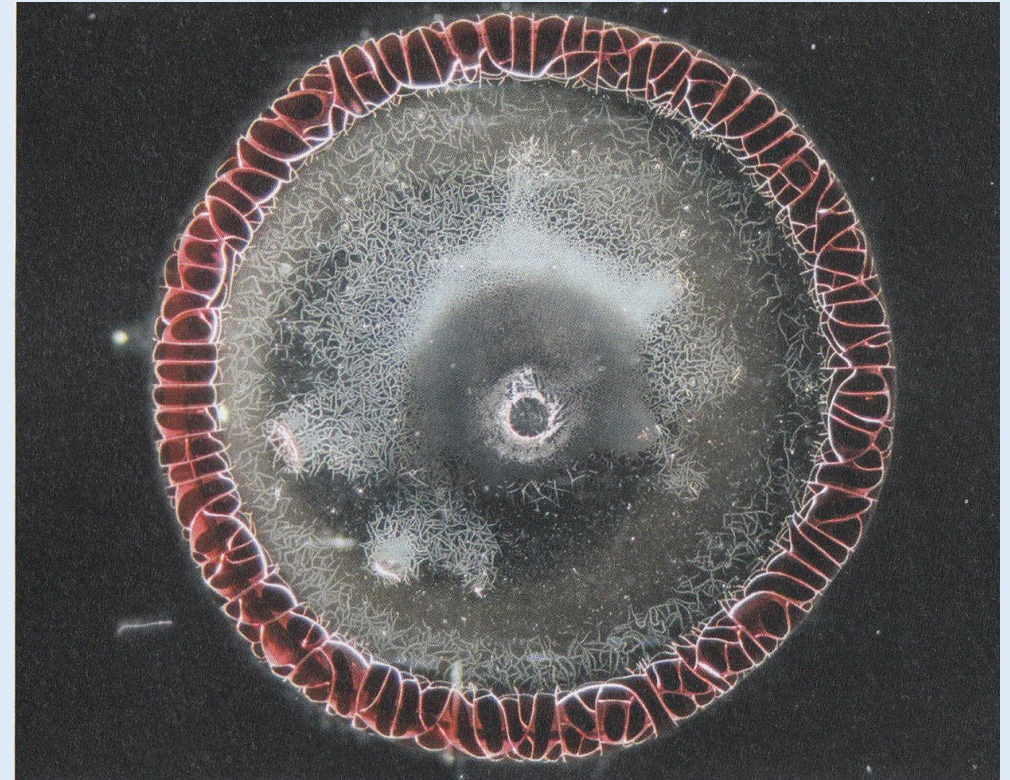

## **Spiritual Shedding**

- Non-physical vaccine transmission could be observed: Similar blood changes occurred in samples of “unvaccinated blood” stored in the room where "vaccine blood" was examined.
- A prick with a syringe containing “vaccine blood” led to an immediate change in the blood of the examiner.

The examiner accidentally pricked his finger with the syringe needle that had been used for the blood of the vaccinated. The blood that came out of his finger immediately showed typical characteristics of a vaccine blood.

**The afterlife  
is not a matter of faith  
or theoretical discussions.**

**The condition of the deceased can be perceived empirically  
through supersensible perception (imagination, inspiration  
and intuition).**

**This ability to perceive existed at all times and everywhere  
on earth, but today's materialism does not want to know  
anything about it.**

# Covid Vaccines and the Life after Death

- Drastic effects in life after death have been found. Rather than adjusting to life in higher spirit realms, the vast majority of the vaccinated deceased that have been studied remained earthbound and suffering.
- As a result, they burden incarnated relatives, which is usually experienced unconsciously in the depths of the soul.
- Furthermore, it is a matter of concern that a disabled life after death may have corresponding effects on subsequent incarnations, right down to the physical.

# Letter from an undertaker:

“For 17 years I worked as a self-employed undertaker.

For some time now, I have noticed that something has changed in the deceased and that I no longer have access to them.

People who are open to this confirm this to me by also perceiving that the deceased cannot go their way.”

**First Death: Leaving the physical body**

**life panorama**

**Second Death: Leaving the etheric body**

**Kamaloka (soul world)**

**Third Death: Leaving the astral body**

**Devachan (spiritual world)**

One of the most important facts of our time is overlooked in the public consciousness:

Countless deceased get stuck in their after-death development and have a destructive effect on people's mental and social lives.

A lot of materialism, egoism, dissatisfaction and aggression arise on earth from this dark field of the blocked deceased.

I estimate that up to 50 per cent of the deceased today have blockages in their after-death life.

They have problems of excarnation and need help.

# The illnesses and blockages of the deceased after leaving the physical body

Types of earthbound deceased:

- Blind deceased: No perception of the spiritual world
- The I-am-not-dead deceased
- The I-am-dead deceased
- The deceased who had addictions
- The deceased who cannot let go
- Deceased caught in a materialistic dreamworld
- Deceased caught in a spiritual dream-world
- Vagabonds
- Dead black magicians
- Deceased with hardened phantom body and ether body due to medication and vaccinations

# The illnesses and blockages of the deceased after leaving the etheric body an astral body

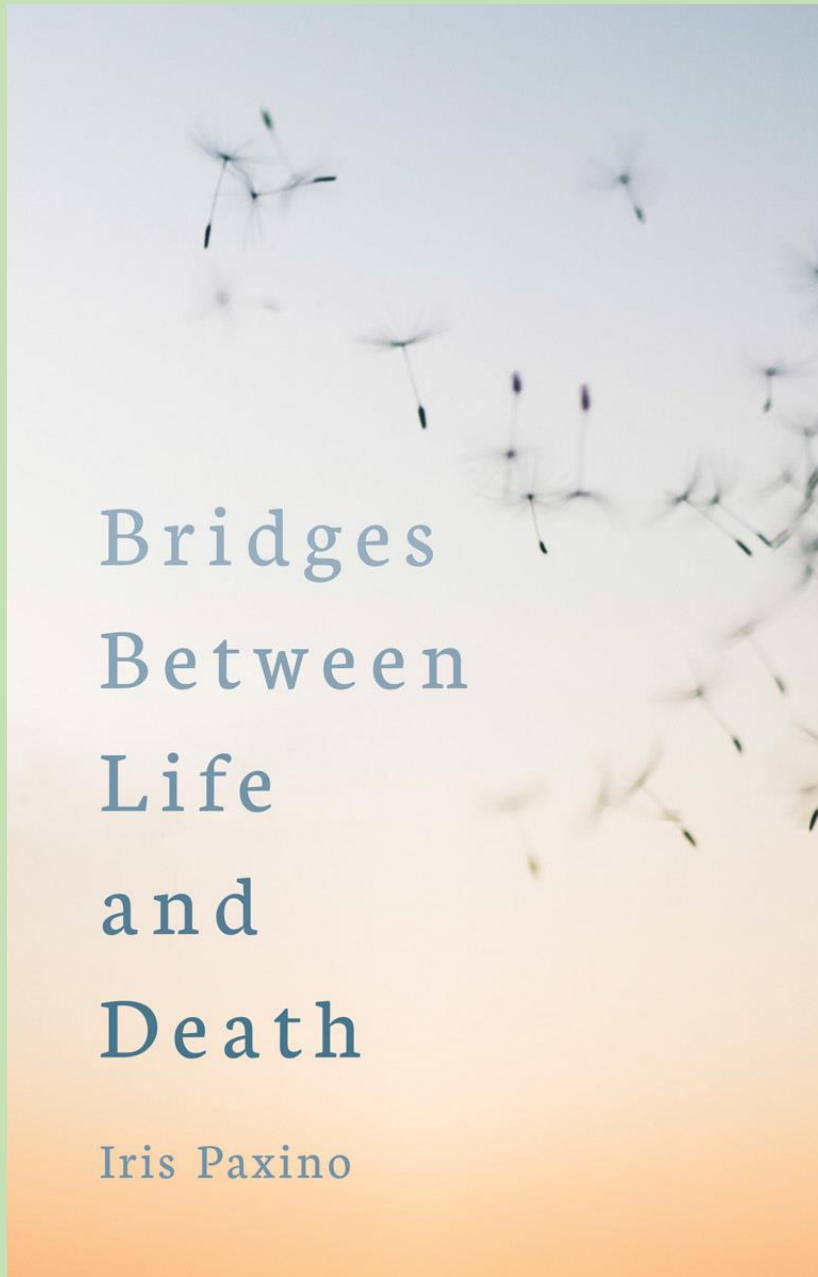

Deceased who have gotten stucked in Kamaloka:

- Lack of self-love
- The Traumatized
- The Possessed
- Those with ties of responsibility
- Religious fanatics
- Suicides

Lucifer, Ahriman, Asuras, Sorat ...

# Does the effect of the vaccine wear off over time?

- The vaccination effects are different in intensity, depending on the physical constitution and spiritual anchoring of the person, as well as the number and circumstances of the vaccinations.
- We often observed a “natural processing” of the vaccination in the first few months after the Covid vaccination. This usually only takes place partially, with some residue remaining.
- It is similar with the deceased. If someone dies immediately after being vaccinated, they are often completely bound. If they die months later, they are usually little freer of it.

# A letter from an alternative health practitioner after 3 years of vaccination:

“What has changed after all this time in terms of the energetic consequences of the vaccination?”

My own perception: at the beginning, when it started, I perceived my vaccinated patients are having to confront an energetic challenge. Now, after time, I perceive them as empty (not to be generalized!), drained and exhausted. They suck energy out of their surroundings. It hurts me so much in my soul and heart! Nothing has changed for the better. The struggle is over. Empty shells, the liveliness that does us so much good in our togetherness and also nourishes us energetically is missing.”

(Feb. 7, 2024)

Note: However, **there are also** many complete transformations of the effects of vaccination.

# Passive Vaccination (Shedding)

- Many unvaccinated people temporarily have the same phenomena in the aura as vaccinated people. The word "passive vaccination" corresponds to passive smoking as opposed to active smoking.
- We cannot avoid dealing with the vaccine beings. As humanity we interpenetrate each other in our auras and take on the vaccine beings.
- Of course their anchoring in the supersensible members of the human being is stronger with active vaccination than with passive vaccination.
- With appropriate spiritual healing and help through medication, it is possible to digest these effects. Often this is a longer process.

# Study confirms shedding

A study of 6,049 participants showed that women who were in close contact with people outside their household who had been vaccinated had

- a 34% higher risk of heavier bleeding,
- a 28% higher risk of their period starting 7 days early, and
- a 26% higher risk of bleeding lasting more than 7 days longer.

# **The topic is broader: other drugs work in a similar way**

Other allopathic medications, such as

- chemotherapy,
- some pharmaceuticals,
- suicides and euthanasia drugs,

can also have auric and post-mortem blockages similar to those caused by the Covid vaccination.

# The unspoken creed of the materialistic and transhumanist world religion:

- There is no spiritual world, only the material world.
- Sickness is the devil, dying is hell.
- Our heaven is survival.
- Our redeemer and saviour is technical medicine and vaccines.
- Since we only consist of matter, our bodies can be replaced by technology.
- We receive eternal life if our brain is replaced by a computer.
- We don't call it religion, we call it science, because then people believe in it more.

# Materialism in its final phase?

- Materialists with destroyed bodies are stuck in a hopeless and very painful state after death.
- They now experience the truth of materialism.
- Anyone who has suffered greatly from this never wants to experience it again.
- So in the long term, materialism will come to an end of its own accord.
